DESCRIPTION

Vision Contracting Ltd was appointed as CSA Contractor to carry out the structural and architectural works associated with this project. The project entailed the refurbishment of the existing office facility to fulfil the PepsiCo corporate guidelines which is aimed at enhancing collaboration, communication and ultimately improve the effectiveness of the workplace.

The work involved the removal of the existing single occupancy offices and create an open plan arrangement; this involved the demolition of and alteration to existing glazed walls, upgrade of existing office HVAC to accommodate the new floor arrangement, refurbishment of the existing toilets, construction of coffee dock areas, upgrade of the existing reception area including high quality reception desk, upgrade of cafeteria layout configuration and the redecoration of the entire office space with new floor finish and corporate imagery applied to walls

KEY FEATURES

- Works were carried out in live office environment
- The works had to be executed without impacting on the PepsiCo personnel
- Work was ongoing for 7 days a week
