Kilnap Business Park,  
Cork

### DESCRIPTION

This project, included the construction & fit-out of 10 new Corporate Meeting rooms on the first floor level together with the refurbishment of the ground floor Ballroom with an enlarged capacity to cater for over 1000 settings. The existing Western Entrance was demolished and replaced with a new and modern Entrance Hall incorporating structural glazing, bespoke stainless steel elements together with stone façade systems. The scope included the provision of new kitchens and food service areas which optimised the existing back of house spaces. Public toilets and existing Staff quarters were remodelled and reconstructed in a new and thoughtfully designed Architectural layout.

### KEY FEATURES

- 5 weeks fast track 24/7 programme to demolish and reconstruct the new Western Entrance Hall.
- Main body of first floor work undertaken whilst the Convention Centre Ballroom was kept fully operational by Hotel Management.
- Integrated Audio Visual technologies installed to ensure that all Meeting rooms were provided with seamless controls from a single interface.
