Description

This project involved the strip-out of the entire Accommodation Block at the Old Head Golf Links, so that new & contemporary Suites could be constructed to take advantage of the stunning views and surrounding landscape. The new rooms were designed by Scott Tallon Walker Architects.

Particular attention was given to the high quality finishes, to ensure that all guests needs were catered for. The design brief was very much focused on ensuring that guests were able to avail of high quality in a very comfortable environment. Acoustics were of critical importance, so that guests could rest peacefully in their down time. Great care and attention was given to the finishes so that guests could enjoy their stay at the Old Head Golf Links.

Key Features

- High quality acoustic insulation was installed in walls & ceilings to ensure maximum comfort.
- The rooms were designed & constructed in a manner whereby Guests could easily utilise all Services.
- Adherence to Programme was critical whilst always being flexible to cater for necessary Design changes
- Quality workmanship to ensure that the installation would be maintenance free, where possible.
